

Glamorgan Anglers Club Ltd Risk Assessment - TREOES POND

Treoes, Bridgend

Description	Identification of Risk	Persons Affected	Control Measure of Risk	Risk Factor	Hazzard
Arrival at Site	Personal Safety	All Club Members	All Club Members are reminded that in general, any activity that is based close to water can be dangerous and each member must take responsibility for their own safety. Members are reminded on their Club license and application form that they must have their own personal Liability Insurance.	L	Accident Control
Arrival at Site	Personal Safety	All Club Members	All entrance gates must be locked after access is gained. Members are provided with Car Parking areas away from the Pond edge.	L	Risk of Accident
Arrival at Site	Parking	All Club Members	Parking within this site is permitted in the specified parking areas alongside the hedges and NOT alongside the Pond. The Club does not take any responsibility for damage to and/or theft from parked vehicles.	L	Damage to private vehicles
Arrival at Site	Emergency Vehicle Access	All Club Members	Members must park their cars in a single row leaving adequate room for another vehicle to drive past them so there is good access should an Emergency vehicle be required	L	Access around the site

Arrival at Site	Drowning	All Club Members	The Pond has 39 Angling Platforms specifically for use of Club Members. Members are warned that these Angling Platforms can be very slippery. Where the Platform is considered by the member to be too slippery, they should in the first instance chose a different Platform that is safe and although Members are generally advised not to fish off any other grassed areas, in these circumstances they may fish next to the Platform on the grass if that grass area is sufficiently flat for the purpose. There are steps down on some platforms, which may constitute a trip or fall Hazard. This does include Disabled access Platforms	M	Correct use of designated Platforms
On Site	Kitchen Facility	Club Bailiffs / Officials	Only Club Bailiffs and Club Officials are permitted to use the kitchen facility, where provided.	L	Burn Hazzard
On Site	Depth of Water	All Club Members	Water to be fished is no more than 6ft deep although depth of underlying silts not known. Buoyancy aids are available on advance request.	M	Risk of Drowning
On Site	Disabled Access Platforms	Disabled Club Members	Wheelchair access is available on specified platforms, but care must be taken at all times especially when platforms are wet.	M	Slip Hazzard
On Site	Public Access	All Club Members	Members of the General public are not permitted on site at any time, the site is permanently locked with only member access	L	Illegal entry to site
On Site	Junior Anglers	All Club Members	It is the responsibility of the Parent/Guardian of any Junior Angler for the Health and Safety and the welfare of the Junior Angler whilst they are on site.	L	Risk of Injury or Drowning
On Site	Fishing Equipment	All Club Members	It is the individual Members responsibility to have their Fishing equipment properly insured for theft or damage. The Club will not accept responsibility for lost or damaged kit	L	Fishing Equipment
On Site	Maintence work	All Club Members	Any member who notices maintence work is required on any part of the fishery should immediately report the issue to a Club bailiff or Official via the contact numbers or emails on their licence or on the Club website.	L	Ongoing safety maintenance

On Site	Personal and other Members safety	All Club Members	Each member has signed a statement on their application form indemnifying the Club against claims and as such Members are reminded that fisheries can be hazardous places. Members should fish safely & responsibly and take all reasonable care in respect of their activities not only in respect to themselves, but also with regard to other members on the site. All members are expected to have read the Club rules on their licence and must at all times abide by them.	M	General accident risk
On Site	Personal Safety	All Club Members	It is the responsibility of the individual member to carry a basic first aid kit in their tackle box/bag. It is not the responsibility of GAC to provide First Aid Equipment.	M	Personal Safety
On Site	Personal and other Members safety	All Club Members	All Members must ensure when casting out from the bankside that the area behind them is clear.	H	Risk of Injury
On Site	Club Rule	All Club Members	Night Fishing is only permitted for members of the Night Fishing Group	L	Club Rule

Glamorgan Anglers Club Ltd Risk Assessment - SUES LAKE, Barry

Description	Identification of Risk	Persons Affected	Control Measure of Risk	Risk Factor	Hazard
Arrival at Site	Personal Safety	All Club Members	All Club Members are reminded that in general, any activity that is based close to water can be dangerous and each member must take responsibility for their own safety. Members are reminded on their Club license and application form that they must have their own personal Liability Insurance.	L	Accident Control
Arrival at Site	Personal Safety	All Club Members	All entrance gates must be locked after access is gained. Members are provided with Car Parking areas away from the Pond edge.	L	Risk of Accident
Arrival at Site	Parking	All Club Members	Entrance to the Car park for this Lake is thro the Club gates (Club standard key required) on Wimborne Rd immediately before the turning to Dow's South Gate entrance and security lodge. Parking within this site is permitted in the specified parking areas above the Lake - under no circumstances can vehicles be taken down the slope to the side of the Lake. The Club does not take any responsibility for damage and/or theft from parked vehicles. There is a secondary car park where you can walk to Sue's Lake via Carol's Lake and if Members use the Dow South Gate Contractors Car park, they must park only in designated bays and not obstruct any of the roadways within the car park. Members must also leave a contact phone number visible through the windscreen so they can in certain circumstances ber contacted by Dow staff.	L	Damage to private vehicles
Arrival at Site	Emergency Vehicle Access	All Club Members	Members must park their cars leaving adequate room for another vehicle to drive past them so there is good access should an Emergency vehicle be required	L	Access around the site

On Site	Safety Procedures	All Club Members	As Sue's Lake is close to the Dow Silicones UK Ltd site, they have Safety procedures that everyone on site must follow. There are Lakeside notice boards (ensure you are familiar with these before you start fishing) that give the relevanty information, particularly as to the procedures to be followed (vacate the lake immediately) if the alarm siren sounds. In the event of such an emergency, do not delay to pack up your fishing gear, vacate the lake immediately and follow the instructions on these notices.	L	Safety on Site
Arrival at Site	Drowning	All Club Members	The Pond has 25 Angling Platforms specifically for use of Club Members. Members are warned that these Angling Platforms can be very slippery. Where the Platform is considered by the member to be too slippery, they should in the first instance chose a different Platform that is safe and although Members are generally advised not to fish off any other grassed areas, in these circumstances they may fish next to the Platform on the grass if that grass area is sufficiently flat for the purpose. There are steps down on some platforms, which may constitute a trip or fall Hazzard. This does include Disabled access Platforms	M	Correct use of designated Platforms
On Site	Kitchen Facility	Club Bailiffs / Officials	Only Club Bailiffs and Club Officials are permitted to use the kitchen facility, where provided.	L	Burn Hazzard
On Site	Depth of Water	All Club Members	Water to be fished is no more than 6ft deep although depth of underlying silts not known. Boyancy aids are available on advance request.	M	Risk of Drowning
On Site	Disabled Access Platforms	Disabled Club Members	Wheelchair access is available on specified platforms, but care must be taken at all times especially when platforms are wet.	M	Slip Hazzard

On Site	Public Access	All Club Members	General public are not permitted on site at any time, the site is permanently locked with only member access	L	Illegal entry to site
On Site	Junior Anglers	All Club Members	It is the responsibility of the Parent/Guardian of any Junior Angler for Health and Safety and the welfare of the Junior Angler whilst they are on site.	L	Risk of Injury or Drowning
On Site	Fishing Equipment	All Club Members	It is the individual Members responsibility to have their Fishing equipment properly insured for theft or damage. The Club will not accept responsibility for lost or damaged kit	L	Fishing Equipment
On Site	Maintenance work	All Club Members	Any member who notices maintenance work is required on any part of the fishery should immediately report the issue to a Club bailiff or Official via the contact numbers or emails on their licence or on the Club website.	L	Ongoing safety maintenance
On Site	Personal and other Members safety	All Club Members	Each member has signed a statement on their application form indemnifying the Club against claims and as such Members are reminded that fisheries can be hazardous places. Members should fish safely & responsibly and take all reasonable care in respect of their activities not only in respect to themselves, but also with regard to other members on the site. Glamorgan Anglers Club Ltd Risk Assessment - River Wye at Monmouth , River Usk at Chain Bridge, River Ely various sites around South Wales & River Taff (incl Cardiff Bay) around Cardiff area

Description	Identification of Risk	Persons Affected	Control Measure of Risk	Risk Factor	Hazard
Arrival at Site	Personal Safety	All Club Members	All Club Members are reminded that in general, any activity that is based close to water can be dangerous and each member must take responsibility for their own safety. All gates must be shut immediately after passing through to ensure no animals can pass through an open gate. There can be livestock present in the fields so care must be taken when walking along a footpath not to spook animals, if in doubt do not walk through the field. Members are reminded on their Club license and application form that they must have their own personal Liability Insurance.	L	Accident Control
Arrival at Site	Personal Safety	All Club Members	Fishing activities on Rivers can be particularly hazardous. Banksides can be regularly undercut by river currents (especially by floods) and easily fall away into the River. Following rain or rises in river water levels, Rivers can be extremely slippery and the distinction between where the bank ends & the undergrowth that covers water begins, can be very difficult to assess - do not presume that there is a safe bank beneath undergrowth. Great care is needed by anyone fishing a River.	H	Risk of Accident
Arrival at Site	Parking	All Club Members	Parking is never provided by the Club on the locations above. Generally, public car parks or lay-bys or street parking are available, sometimes at a cost. Members must park safely & responsibly. The Club does not take any responsibility for damage and/or theft from parked vehicles.	L	Damage to private vehicles

Arrival at Site	Drowning	All Club Members	Generally the Club does not provide Angling Platforms on these locations. On the River Wye at Monmouth, the Club has endeavoured to make safer, some limited number of angling platforms, but these will still be subject to the hazards outlined above and Members should always make their own assessment of the condition of any fishing peg before using it. Members should NOT try to make a fishing place where one does not already exist. Members should take great care moving along paths and steps of any River location.	H	Safety on Bankside
On Site	Drowning	All Club Members	Water depth on Rivers is unknown and dependant on the River levels. It is not unusual for there to be 6' to 10'+ depth immediately in front of the River bank and this depth combined with the natural River currents and the height of River banks make it extremely difficult to exit the water if anyone falls in. Hence all Members are expected to take extra care when moving around fishing spots and walking along the banksides.	M	Risk of Drowning

On Site	Public Access	All Club Members	<p>There are public & cycle paths along the banks of these Rivers especially the Rivers Taff, Wye and Cardiff Bay and therefore public access is permitted. In particular people using the public footpaths can have dogs with them that are not on leads. Dogs can make their own way to an angler's fishing place and we expect all members to have secured their tackle and bait so as not to cause harm to the dog (or indeed any animal). The Rivers Taff, Wye and Cardiff Bay are extensively used by other users, particularly boats, canoeists and rowers. Members are expected to accord all other water borne users due consideration. Any comments about other users should be made by members to a Club Official via the contact names on the Club website and in Newsletters. Whilst we cannot control other Users behaviour, we can make contact with some of the users to try to ensure we work together to enjoy our respective uses.</p>	L	Public access
On Site	Junior Anglers	All Club Members	<p>It is the responsibility of the Parent/Guardian of any Junior Angler for Health and Safety and the welfare of the Junior Angler. The Club recommends that Junior anglers do NOT fish River locations alone and are always accompanied by a Senior member. The Senior Member must closely supervise Juniors at all times.</p>	M	Risk of Injury or Drowning
On Site	Fishing Equipment	All Club Members	<p>It is the individual Members responsibility to have their Fishing equipment properly insured for theft or damage. The Club will not accept responsibility for lost or damaged kit</p>	L	Fishing Equipment
On Site	Maintenance work	All Club Members	<p>Any member who notices any particularly dangerous parts of the above waters should immediately report the issue to a Club bailiff or Official via the contact numbers or emails on their licence or on the Club website. The Club in most circumstances will not be able to rectify the hazard but can post warning notices on our website.</p>	M	Ongoing safety maintenance

On Site	Personal and other Members safety	All Club Members	Each member has signed a statement on their application form indemnifying the Club against claims and as such Members are again reminded that fisheries can be extremely hazardous places. Members should fish safely & responsibly and take all reasonable care in respect of their activities not only in respect to themselves, but also with regard to all Users on these waters. All members are expected to have read the Club rules on their licence and must at all times abide by them.	M	General accident risk
On Site	Personal Safety	All Club Members	It is the responsibility of the individual member to carry a basic first aid kit in their tackle box/bag. It is not the responsibility of GAC to provide First Aid Equipment.	M	Personal Safety
On Site	Personal and other Members safety	All Club Members	All Members must ensure when casting out from the bank side that the area behind them is clear. Also where there are electricity lines crossing the River, members should not fish near these in order to avoid lines becoming entangled.	H	Risk of Injury
On Site	Club Rule	All Club Members	No Night Fishing is permitted at these waters	L	Club Rule
